 Nardi nošeni atomizeri namenjeni su potrebama u poljoprivrednoj proizvodnji. Ove specijalno dizajnirane mašine pružaju najbolju hemijsku zaštitu u vinogradima i voćnjacima, zahvaljujući nizu tehničkih inovacija koje poseduju. Nardi atomizeri proizvedeni su sa velikom pažnjom prema životnoj okolini i korisnicima ovih oruđa i u ove svrhe proizvodi se širok asortiman različitih atomizera kapaciteta rezervoara od 200 do 800L sa najkvalitetnijim komponentama koji ispunjavaju očekivanja i najzahtevnijih kupaca.

 Nardi mist-blowers are highly specialized implements intended for agricultural use. They are special designed in order to provide the very best chemical protection in orchard and vineyard crop production, thanks to a series of technical innovation. Nardi produce the implements to a great care of environment and users of products and in this purpose have large number of different mist blowers with tank capacities ranging from 200 to 800L, which, with their wide range of use, can meet the expectations of even the most demanding users.
