Kuća Vitron

Family farm

Springs of life Zelenika

GEWÜRZTRAMINER "KADJ"

It is produced from a rare variety Gewürztraminer which accounts for only 1.1% of Croatia's vineyard plantation. On the Zelenika family farm, the plantation is situated within ecological production. The wine is produced by cold maceration and the produced amount is limited.

By cultivating and processing the said variety and producing a high-quality wine, this farm is building on Ilok's 300 year-old tradition. The cultivation of Gewürztraminer has begun in 1710, which was served at the coronation of Queen Elizabeth II in 1953.

Carmen Sylva

Unification of the world's past and future.

Characteristics

Carmen silva, a half-dry demi sec sparkling wine, is created from the best varieties of grapes grown on hills of ilok, croatia. These very same types of grapes were used by ancient romans to make wines for roman emperors same 2000 years ago.

2000 Years later we created carmen silva by combining the same sort of grapes with the classical methods that are certified across the globe. Each bottle of our sparkling beverage is aged for a minimum of two years to get the best possible quality that those unique grapes can offer.

But that was not enough for us. We added an unexpected twist to this already top quality beverage. Pine needles which are only found on the northern adriatic coast of croatia are gently sprinkled over this unparalleled sparkling wine. Those organic budding needles have offered an extra edge to this top line beverage. In addition, this wine is produced without using any preservatives or additives to create a better world for the present and future generations.

The unique aroma and sweetness of carmen silva has stunned everyone who has tried this sparkling wine. Among those are the rolling stones band and professional judges that have awarded this sparkling wine with numerous local, national and international awards, including the decanter award for the year 2010.

Alcohol percent

Carmen silva has 11.8 Vol % of alcohol

Packaging

Carmen silva is packed in a 0.75 L bottle that is itself unforgettable. In fact our novel packaging has received several awards, including the golden medal for design at the 77th worldwide exhibition that was held in novi sad, serbia in 2010.

Yearly production

Because we use the best grapes of the finest sorts for the production of carmen silva, we can only offer 2,500 bottles per year of this unique beverage.

Awards

Among others, carmen silva has received the decanter award in london for the 2010 as the most commended sparkling wine, after 10,000 individuals have casted their votes.

Carmen silva has also received the golden medal for its quality, as well as for its design at worldwide exhibition held at the novi sad, serbia in may of 2010.

Double gold

A golden drink for golden moments

Characteristics

You are invited to take part in our golden rush and spent your golden moments with the internationally awarded Double Gold. This beverage is celebrated across the globe as a highest quality sparkling wine worthy of royal banquets. Many worldwide admirers have stated that Double Gold has a heavenly aroma and distinctive visual sense that can please your body and your soul, and create rich emotions of third dimensions which will forever be remembered.

This extra sec and extra dry beverage is shaped by using classical methods and then carefully united with 24 carats golden plates. Those are the very same golden plates that from the Middle Ages until today have been given mystic power and superior meaning.

We named our beverage Double Gold because it is two times golden – first when it is born from golden sun beams, covered with golden summer drops of rain, and grown on the gold-worthy Croatian soil. The second time is golden when its aroma offers the nicest sense of taste, happiness and joy, which in fact could be the most golden moment of your life on the earth.

Alcohol percent

Double Gold has 10.8 vol % of alcohol with 12 bis level of sugar per g/l

Packaging

Double Gold is served in bottles that contains 0.75 l and is crowned with the most beautiful handmade labels that are melted in tin. Each bottle has individually assigned numbers between 1 and 2500. Each number is sealed with Company's seal.

Yearly production

Due to the highest quality of our production the yearly amounts of Double Gold bottles are limited to 2,500 total.

Awards

Among others, carmen silva has received the decanter award in london for the 2010 as the most commended sparkling wine, after 10,000 individuals have casted their votes.

Carmen silva has also received the golden medal for its quality, as well as for its design at worldwide exhibition held at the novi sad, serbia in may of 2010.

Double gold

A golden drink for golden moments

Grounded sun

The greatest pleasure in the world's smallest sparkling wine bottle

Characteristics

Grounded Sun offers the greatest pleasure captured in a semi-sweet sparkling wine enclosed in the smallest sparkling wine bottle in the world. After the drink is pour into the glass you are holding for a very special occasion, you will be mesmerized with 6,330,000 pearls that will form a perfect silver crown. Each pearl will alone create the joy of knowing that you are drinking one of the best sparkling wines that will stay forever in your memory for its exclusivity and affection.

Alcohol percent

Grounded Sun has 10.8 alcohol.

Packaging

This exclusive sparkling pleasure is bottled in 0.125ml bottles, which are inspired by the Grounded Sun sculpture located in downtown of Zagreb, Croatia.

The label of each bottle can be customized to present a hotel or a country that could receive exclusive rights for the sale of this product. In addition each label can have a customized personal message for a special occasion, zodiac sign, or any other approved message as ordered.

For additional price those labels can be also handmade as a tin label.

Yearly production

Due to the highest quality of the sparkling wine, we can only offer 40,000 bottles per year.

Hope from the sea

King Neptune is nourishing this beverage

Hope from the sea

King Neptune is nourishing this beverage

Characteristics

Within every drop of the Hope from Sea you will sense a love toward nature and people. That love comes from the gentle touch of the soil and motherly cuddle of each grape until it is grown and transformed into the distinctive aroma that characterizes this unique sparkling wine. Once the drink has matured to the point that it can cause a glittery shine in your eye, warmth in your heart, and a magic sense of cheerfulness in your soul, we start transporting this beverage 450 miles until we reach Adriatic coast.

When we arrive to a beach that King Neptune would personally use, we take each bottle and put it into especially designed cage. Those cages are then brought to over 80 feet depth in the Adriatic ocean for King Neptune to shelter them for the next 3 years. We, the humans on the other hand, during this period of time only worry about spotless handling of the entire operation in order to protect the business ethics and reputation of our company. Therefore, our specially trained divers are also monitoring every single bottle to ensure promised quality.

The end purpose of all efforts is that each customer who will enjoy the Hope from Sea recognizes that the entire team of specialists deeply cares about you and your full satisfaction. We are very grateful that King Neptune is wholeheartedly supporting our endeavor.

Alcohol percent

Hope from the Sea has 10.8vol %

Packaging

Hope from the Sea is stored in especially designed 0.75 l bottles that are adorned with shells, sea stars, sea horses and little crabs. Those sea creatures have adopted our bottles as their own home because they enjoy the peace that surrounded this place for 3 years.

Yearly production

Due to the complexity of the production process we can only offer around 1,000 bottles for the year 2011. For the year 2012 we will have additional 1000 bottles ready for immediate export.
