

Load it up. This versatile loader tractor gets after **ANYTHING.**

The New Tier 4i 5600 Series. It has a nose for what you want it to do.

Visibility is key in loader work. Our MF5609 and MF5610 each offer a new sloped nose to improve sightline down the hood and beyond the bucket. The Visio roof further improves forward visibility, even at full loader height.

The larger, 6-post cab design provides a sweeping 360° view, as well as a roomier, more comfortable and productive workspace.

Powerful and maneuverable, these tractors are multi-taskers, even in close quarters. The proven Dyna-4™ transmission has many new features, including AUTO-DRIVE, which automatically and smoothly shifts gears as if driving a car.

Model	5609	5610
PTO power @ 2,200 rpm HP (kW)	70 (52)	75 (56)
Engine power HP (kW)	90 (67)	100 (75)
Engine make/model	33 AWI HD by AGCO Power	
Cylinders/displacement L (CID)	3-cylinder/3.3 (201)	
Aspiration/charge cooling	Turbocharged & intercooled	
Fuel system	Common rail direct injection	
Emissions control	External Exhaust Gas Recirculation (EGR), Diesel Oxidation Catalyst (DOC)	
Fuel capacity gal. (L)	42 (160)	
Transmission		
Type: standard	Dyna-4 transmission with speed matching; AUTO-DRIVE is optional	
Speeds	4 gears, 4 ranges, 16 total speeds	
Shuttle	Electro hydraulic via LH 3-function control lever or optional RH factory loader joystick	
Creep	Optional 14:1 reduction	
Rear 3-point Hitch		
Type/ASAE category	Electronic linkage control with lower link draft sensing/Cat II	
Lift capacity @ 24" lbs. (kg)	7,100 (3,220)	
4wd Front Axle		
Type	Center Drive with planetary reduction	
Drive engagement	Electro hydraulic	
Rear Axle		
Type	Flange with internal wet disc brakes	
Differential lock	Fully locking electro hydraulic	
Braking	Independent, internal wet multi-disc brakes	
Power Take Off (PTO)		
Type	Independent, electronically engaged	
Speeds	540/540e	540/540e/1,000
Hydraulics		
System type	Open center	
Standard flow at remotes gpm (Lpm)	15 (57)	
Optional flow at remotes gpm (Lpm)	26 (100) with Twin Flow System	
Rear remote valves	2 standard, up to 4 available	
Loader joystick option	Integrated factory loader joystick with shuttle control and mid valves	
Operator's Area		
Type of operator's area	6-post cab, twin doors, flat deck	
Steering /seat	Adjustable steering/mechanical or air suspended seat	
Cab suspension	Optional mechanical system	
Dimensions		
Height over cab in. (mm)*	108.5 (2,755)	
Overall length in. (mm)	167.5 (4,253)	
Wheelbase in. (mm)	97.1 (2,467)	
Min. width at fenders in. (mm)	79.3 (2,013)	
Weight lbs. (kg)	2wd: 8,426 (3,822) /4wd: 8,978 (4,072)	

*Height for standard cab, no susp, flat floor and 16.9R34 tires
