A wide choice of machinery for the municipal sector  
Cab and semi-platform models: 19.5 to 215 hp

VISION INNOVATION LEADERSHIP QUALITY RELIABILITY SUPPORT PRIDE COMMITMENT

MASSEY FERGUSON

# Meeting our customers needs through machine diversity

Maintaining and conserving quality standards of public, civic, urban and metropolitan areas is big business, that's why you need a name you can trust. Not only is our machinery world-renowned in the agricultural sector, but for years now Massey Ferguson has proved to be the genuine choice for multi-application, municipal users.

Whether you're a contractor or privately owned business, you'll find the perfect partner to suit your needs; from maintaining golf courses and turf management to haulage and excavation, we have a machine to fit your budget and sector.

Every tractor we produce is truly versatile with impressive possibilities. You'll be amazed at how simple they are to use and yet, with simplicity comes the strength and reliability to get the job done.

Whatever your needs within the municipal sector, Massey Ferguson is dedicated to offering a full range of high quality products always backed by a worldwide dealer network, round-the-clock parts and aftersales support, and a choice of extended warranty plans, ensuring complete peace-of-mind and value for money. If you're searching for the complete solution for your business, look no further.

**Think Quality.  
Think Massey Ferguson.**

# The range...

## MF 1500 Series 19.5 to 46 hp

Choose between cab or platform versions with mechanical, hydrostatic or speed-shift transmissions. Suitable for a whole range of duties including mowing, fine turf-care, horticultural and estate management.

The MF 1500 Series is tough yet compact and extremely versatile. You'll find class-leading technology on-board and high-powered engines, making them simple and pleasurable to work with.

## MF 3600 Series 69 to 100 hp

A real all-rounder. The MF 3600 range of standard, V,S,F and GE models combine efficiency and economy, making whichever model you choose a powerful ally in the municipal sector. Able to tackle a wide range of tasks with ease, from golf course maintenance to park management, the MF 3600 Series is simple to operate and cost-effective to run.

The full line-up comprises four models, each available with 2- or 4wd, semi-platform or spacious flat-floor cab. All models are stable and manoeuvrable, with high-power-to-weight ratio, low centre of gravity and excellent ground clearance.

High-performance hydraulics and transmission means that any job is handled with ease and high torque, fuel efficient AGCO SISU POWER engines are standard across the range.

## MF 5400 Series 86 to 155 hp

For even greater operating flexibility, the MF 5400 Series could be everything you are looking for in a municipal tractor. This nine model line-up, with high-torque engine power up to 155 hp, works in harmony with its easy-to-use Dyna-4 transmission and high-specification three-point linkage.

The MF 5400 makes light work of heavy-mowing, hedge and verge trimming, loading, excavating and transportation. Optional Steep-nose bonnet and Visio roof versions improve forward visibility for loaders and front linkages.

## MF 6400 and 7400 Series 95 - 215 hp

These two ranges of medium and high-horsepower tractors are ever-popular amongst both agricultural and municipal sectors. The MF 6400 Series has a twelve model line-up, ranging from 95 to 215 hp, with AGCO SISU POWER and Perkins engines, Dyna-6 transmission, extra-strength chassis, linkage and axles for multi-application jobs.

The MF 7400 Series consists of six models, from 125 to 190 hp. The MF 7400 range offers award-winning Dyna-VT transmissions, powerful Perkins and AGCO SISU POWER engines.

All models in the high-horsepower range have extra-strong linkage and hydraulics systems, robust axles and chassis and bodywork that's built to last.

The entire MF 6400/7400 range offers MF's 'QuadLink™' suspended front axle\*\* and cab suspension. Compared to a 'standard' tractor, the overall effect of having a high specification seat, QuadLink front axle suspension and cab suspension can be a reduction in vibration by up to 50%<sup>1</sup>. The result is greater comfort when operating for long periods, leading to increased productivity, quality end-results and a more relaxing environment. The perfect combination when working in haulage, transport, excavation and road maintenance.

## MF 6400 and 7400 Series Panoramic Cab 95 - 150 hp

The mighty MF 6400/7400 Panoramic Cab Series is perfect for the municipal sector. The large glass area of the cab gives the operator an uncompromised view of the external working area and comes in RAL2000 for extra visibility and safety on the roads and other public areas. It is equally at home trimming verges on motorways as it is cutting, clearing and loading.

For smooth, effortless operation and maximum productivity, the MF 6400/7400 Panoramic Cab version of this already successful machine is a must for any municipal professional. With exceptional visibility and maximum comfort from the cab you can achieve maximum productivity throughout the day.

<sup>1</sup> Standard specifications vary by model and market.

# A beautiful finish - everytime

If you're looking for versatility and power when mowing, look no further.

Our range of professional multi-application tractors are suited to a wide variety of grass-cutting applications.

Whether you want to cut and drop, cut and collect or mulch the grass that you manage, you'll need to make the right choice when matching machinery to the implements you use. Versatility can be found in both our large (MF 5400/6400/7400) and smaller ranges (MF 1500/3600), you're bound to find something perfect for golf courses, verges, parks and sports and leisure facilities.

Powerful engines and straightforward transmissions make all kinds of municipality work easy and safe. Good all-round visibility and manoeuvrability are important attributes and something you won't have to worry about with a Massey Ferguson municipal machine.

There's a choice of transmissions too, from basic mechanical to a fully hydrostatic unit that makes changing direction in and around garden furniture quick and easy, through to a Speedshift with PowerShuttle or a full CVT (Continuously Variable Transmission). With a wide selection of hydraulic and PTO options plus turf tyres, these tractors are ideal mowing partners.

If you want to boost output when mowing, it's important to choose the right machine.

The MF 1500 Series has an optional robust and highly-durable mower deck that will make a noticeable difference to any grass area, making the MF 1500 a compact and tidy machine to operate.

Our smaller cab and platform range might seem modest compared to others, but both MF 1500 and MF 3600 Series tractors are nimble, extremely tough and with 4-wheel drive as standard on all models, you can maintain perfect traction, leaving you with well-mown ground - year after year.

If you're looking to cover larger turfed areas such as playing fields and parkland, the MF 5400 Series is right for the job; powerful, fuel efficient, easy to maintain and a pleasure to drive.

#### MF 1500 Series features:

- A modern driving environment, spacious cab and plenty of access and excellent visibility.
- A choice of mechanical, hydrostatic and DynaQPS transmissions.
- A range of hydraulic and PTO options are available making it *the* choice for turfcare professionals.

#### MF 3600 Series features

- Exceptional comfort and operating simplicity, with excellent fuel economy.
- Versatile hydraulics and easy-to-use, three-point linkage.
- Both cab and semi-platform versions offer excellent visibility and comfort, with easy access.

#### MF 5400 Series features

- Industrial-strength engines for unrivalled combination of power and economy.
- Stylish and modern body work for ultimate professionalism.
- For optimum performance, all MF 5400 Series tractors have the outstanding Dyna-4 transmission with Power Control to enable easy and convenient forward/reverse shuttling. Ideal for loader work.

# Turfcare made easy

For exceptional turfcare, you need a machine you can trust. It's important to get a professional finish.

In the drive towards perfection you need accuracy and functionality. It doesn't matter if the equipment you are working with is mounted, pushed or trailed, the Massey Ferguson machine being used delivers the power you need; continuously and consistently.

That's why we've created specialist machinery designed to do all the hard work and leave you with perfect grounds.

For maximum performance and playability on bowling greens, golf courses and cricket pitches, preparation is of the utmost importance. Get it right first time and take the worry and wasted hours out of turfcare.

Massey Ferguson has a range of machinery that can help deal with pitch density, soil moisture, seeding and aeration. The versatility of our model range means that you can be assured of first-rate manoeuvrability and ultimate torque capability from the engine.

High capacity three-point linkage can handle a wide range of applications and attachments, and is easy to operate.

Our municipal machinery guarantees easy maintenance, excellent visibility and driver comfort as standard. A Massey Ferguson standard you can trust in.

## Performance professional

Massey Ferguson's municipal range could make a big impact on your business. From the reliable and agile MF 1500 Series to the powerful, multi-tasking MF 5400, the choice of medium-horsepower and high-horsepower models are equally at home on turfed ground as they are on the road or golf course.

Our engines are smooth and quiet with high torque delivered from very low engine speeds, helping you to accomplish many painstaking tasks with ease, producing a good quality finish that lasts. All of our straightforward transmissions give an excellent spread of ground speeds to suit all kinds of applications.

01

02

03

04

- Ergonomically positioned finger-tip controls on both cab and platform tractors.
- Warning lights and gauges allow easy interpretation of information and control of the tractor.
- Optional creep and super creep can be specified on MF 5400 Series; providing slow and very slow speeds, ideal for verti-drain work.
- The light-weight body work and chassis gives low ground pressure making turfcare and green work safe and trouble-free.

01 The MF 5455 is the ideal tractor for the municipal sector professional. Equally at home on the golf course as it is on a sports field.

02 Seeding made easy and effortless.

03 Sand spreading with the MF-1531.

04 The MF 3645 with turf tyres in verti-drain application.

# Roadside maintenance

Roadside maintenance means that you are well and truly in the public eye, so you need a machine you can trust.

## Real choice

With a variety of models, including the MF 5400 and MF 6400/7400 Standard and Panoramic Cab, choosing the tractor with the specification you need is just the beginning.

The MF 5400 Series provides you with a choice of standard or Steep-nose bonnet designs, a 'Low profile' cab can also be specified, mounted lower on the tractor chassis, giving lower overall height. 'Slimline' or 'Visio' roof styles give further variation in height and functionality; offering improved visibility and access to awkward areas.

MF 6400/7400 Panoramic Cab tractors offer a pillarless right-hand-side window that gives an uncompromising view of side-mounted implements. Operators work in the ultimate environment to achieve maximum productivity and safety.

All models are fitted with road lighting plus additional, adjustable work lights to enable safe, after-dark completion of urgent jobs.

Whichever model you choose, you can be assured of reliability, quality, excellent fuel efficiency and simple servicing and maintenance to keep you out on the road.

# Loading, excavating and transportation

Whether you're transporting goods, excavating, loading or unloading, the MF range of municipal machines, loaders and loader attachments can handle the toughest jobs.

All of the machines in the Massey Ferguson municipal line-up are more than capable of handling the rigours of excavation work. For transportation purposes the high-tractive power-to-weight gives you extra strength where you need it and our range of hydraulic options means that loading couldn't be easier.

Our hard-wearing and robust tractors can deal with the most rugged terrain. The 'Steep-nose' bonnet design on the MF 5400 Series offers excellent visibility and access to awkward areas whilst the MF 3600's turning circle allows for precision steering in tight spaces.

## Powerful and agile

Thanks to a high-performance hydraulic system, you can be sure of a consistently powerful operation.

Take advantage of the smooth oil flow and pressure required for a wide range of external implements. For use within many municipal applications; a sand-spreader, trailer, loader, mower, verti-drain or speed-seed. The possibilities are endless.

For models with Closed-Centre Load Sensing (CCLS) hydraulics, high oil-flow and pressure can be provided according to demand, with virtually instant results. CCLS means no wasted power or fuel.

## High quality, high performance loaders

To further enhance the variety of applications that your Massey Ferguson machine is capable of, there is a choice of loaders and loader implements.

Through the application of advanced industry-leading technology, MF 900 Series loaders provide simple practical solutions to the day-to-day operational challenges of modern farming, ensuring essential compatibility, easy maintenance and all-round versatility.

**Ask your local Massey Ferguson dealer for more information and take a look at the MF 900 Series Loader and Loader Implement brochures.**

- Full integration of tractor and loader is achieved easily with the MF 900 Series, to suit 50-300 hp Massey Ferguson tractors. You can choose from either 'standard' or 'parallel' linkage.
- The superb build quality helps to retain high residual value, so when it's time to change, the cost can be much lower than other, seemingly 'cheaper' tractors.
- Simple-to-use hydraulics and PTO for quick attachment of implements.
- Unbeatable ground clearance and outstanding fuel economy.

# Individual care packages for individual circumstances

Nothing is ever certain in life; this is especially true if you work within the agricultural sector. So imagine how much easier life would be if you could experience true peace-of-mind where your farm machinery is concerned; no more hidden costs or surprise invoices.

**manager** Service and Extended Warranty Plan\* is a complete package aimed at providing total care for your tractor including routine maintenance, repair cover and full AGCO backed warranty. This fully-backed contract will cover critical components such as:

- Engine and transmission
- Hydraulics
- PTO
- Steering
- Electronics
- Cab and controls
- Axles

#### Assurance for the life of the machine

You can be assured of 'preventative' servicing using the latest technology and professionally trained technicians. With years of experience they are on hand to ensure that your machine runs at optimum performance.

All of this will be carried out according to a strict maintenance schedule supplied by Massey Ferguson.

With a **manager** Plan and through this 'preventative' servicing, your machine will maintain excellent productivity throughout its long working life. The most important aspect of this package is that you will never incur any unexpected hidden costs.

It is possible to cut the cost of maintaining your machine through 'preventative' servicing and maintenance, thereby reducing long term ownership costs and securing a productive future for your business.

#### Tailored to your needs

**manager** has been designed to cater for your individual needs. Cover is available for up to 5 years or 6,000 hours depending on your requirements. Available at initial point of sale or, for added flexibility, you can choose to take on a **manager** Plan any time up to 12 months after machine registration.

Your dealer will prepare the servicing plan and can tailor it to last up to a maximum of 10,000 hours.

By choosing **manager** Service and Extended Warranty Plan, not only are you assured of complete peace-of-mind for you and your business but also a higher residual value for your machinery, full dealer history and genuine AGCO Parts inside and out.

**For more information on manager Service and Extended Warranty Plans speak to your Massey Ferguson dealer.**

\* **manager** Service and Extended Warranty Plan may not be available or may be market dependant. Please contact your Massey Ferguson dealer to check availability in your area.

# Customer Support

## AGCO Customer Support... providing local service to the global brand

Massey Ferguson is a truly global brand with machines operating all over the world, from revolutionary "little grey fergie" tractors to the latest high-tech tractors and combines. Have you ever wondered how we continue to provide industry-leading parts and service support to such a vast array of machines and technologies across the globe?

Behind every Massey Ferguson machine is the powerful aftersales support of AGCO's Customer Support organisation.

Our main aim is to ensure that every machine - old or new - is fully supported locally, offering every Massey Ferguson owner:

- The best service in the industry
- Low cost of ownership
- A reliable and durable machine
- Minimum machine downtime
- A high resale value

### State-of-the-art warehousing and logistics from AGCO Parts

Of course, every Massey Ferguson dealer is fully backed-up by the AGCO Customer Support organisation which provides industry-leading parts supply through AGCO Parts' state-of-the-art warehousing and logistics. With outstanding service levels, overnight delivery and inventory covering all Massey Ferguson machines - even those over 10

years old - we only ever supply genuine parts, and we guarantee the right fit, first time.

### The right aftersales solution whatever the age of machine

Whatever the age of your Massey Ferguson machine, AGCO Customer Support has the right aftersales solution to save time & money, providing appropriate, affordable and reliable servicing and maintenance solutions in every situation.

### Practical local support where you need it

AGCO places great emphasis on providing the best service to our Massey Ferguson dealers and this extends beyond the exceptional servicing and maintenance solutions and parts supply:

- Expert training and specialist equipment
- Advanced diagnostic techniques
- Information retrieval technology to communicate the very latest parts and service information
- Highly skilled technical support groups

With aftersales support from AGCO Customer Support, it's not just about supplying a filter or doing an oil change. It's about providing the best solution to our customers' needs, wrapped up with industry-leading parts and service support.

# Our promise to you

Our mission at Massey Ferguson, since the company was founded, has been to design, engineer and manufacture reliable, trustworthy and innovative machinery. Machinery that people recognise the world over.

## VISION

Our vision for the world of agricultural machinery has always been clear; to produce worthwhile and innovative solutions for professional farmers feeding the world. Always recognisable, the Massey Ferguson brand of products signifies technological advancement, enhanced design, strict testing and quality manufacturing which is consistently trustworthy and hardworking.

## INNOVATION

We've always been one step ahead when it comes to innovation. Our founder, Harry Ferguson is proof of that.

Through continual questioning and analysis of customers' needs, our products are designed, tested and built to enhance productivity, efficiency and convenience, constantly pushing the boundaries of farm machinery.

From the simplest push of a button to technological innovations in engine and transmission efficiency, we strive to make life simpler for the operator.

## LEADERSHIP

Massey Ferguson machinery is the most widely sold agricultural product in the world, making us the leaders in the agricultural arena. We've won awards for our class-leading technology and advancement in design and we're already driving ahead, environmentally and economically.

## QUALITY

It takes certain distinctive attributes to make a quality product. At Massey Ferguson, this distinction starts at the drawing board and doesn't stop. Every stage of manufacturing, from the building and testing process to sourcing the best components, demands excellence. Our products and services meet the most stringent standards allowing us to deliver our promises, confidently.

## RELIABILITY

We don't let a Massey Ferguson machine out of our sight until we are 100% sure it will perform to the high standards you expect. Only after rigorous and painstaking testing both in simulations and in the field, will we allow our products to leave the factory. Whatever you put your tractor through, day after day, season after season, we can guarantee we've already tested those limits and gone beyond them.

## SUPPORT

Agriculture can be a tough business, that's why we make sure that you can get support whenever you need it and at crucial times of the year. Be assured of sustainability from more than 3,200 dealer outlets in over 140 countries and a comprehensive machinery distribution network. You'll be part of a dedicated family of specialists who make it their business to give you genuine, top quality service support.

Equally, we won't let an opportunity slip through your fingers. If you have the commitment but not necessarily the financial resources to compete in today's market-driven climate then AGCO Finance could have the solution. Ask your local dealer for more information.

Financial options are market specific but can include leasing, hire purchase, contract hire and loan facilities.

## PRIDE

Pride means many things to us at Massey Ferguson. It's in everything we do and it shows. It's in our proud heritage, our unique product design and our ongoing support to our customers.

## COMMITMENT

We are deeply committed to delivering the highest of expectations and to build quality, reliable products with innovative features that are backed by the best support packages. Ultimately, we are committed to continuous growth and profitability for all, whilst recognising the needs of both large and small businesses through professionalism and quality.

# Want more?

Every Massey Ferguson machine is designed with overall engineering excellence and build quality that ensures easy serviceability, low maintenance costs and high residual values.

### More extra's

Whilst offering this high level of standard equipment, all models come with a choice of optional equipment to enhance specification and meet the many and varied needs of the specialist operator.

Consult your dealer for details of the full range of optional equipment, including chevron and turf tyres (01-02), front and rear weights, a selection of drawbars and hitches (03) and extra spool valves (04).

### More choice

Want to know more about a specific range from the Massey Ferguson line-up?

Simply ask your dealer for a full-colour brochure with complete specifications on each model.

You'll be surprised at the choice; there's a machine to suit all your municipal needs.

### More information

# MF Municipal highlights

Massey Ferguson municipal machinery is the quality choice for private businesses, local authorities and contractors alike. Here are just some of the highlights of buying and running a Massey Ferguson tractor within the municipal sector.

- 01** Designed to get the job done with maximum comfort and no fuss. Choose between semi-flat floor, platform models or spacious factory-fitted cabs.
- 02** Loaders can be added for extra versatility and a multitude of applications.
- 03** A choice of smooth transmissions are available, for the full specification please refer to the relevant product brochure.
- 04** All controls are easy-to-use and within reach of the operator. Plus each machine gives perfect visibility at all times.
- 05** Robust lift capacity on all MF machines means peace-of-mind when it comes to tougher jobs that require more strength behind them.
- 06** Latest generation engines on all MF municipal tractors provide emissions compliant, fuel efficient machinery with improved power and torque and lower fuel consumption.
- 07** Unbeatable support from your local Massey Ferguson dealer ensures lifetime support for you and your machine.
- 08** Unrivalled choice of machinery with the ability to meet the needs of the municipal user.
