

MATERIAL SAFETY DATA SHEET

Product name: MINAZEL PLUS

Date: 01.11.2010.

Version: [No5]

Replace the [No4] version of [01.06.2009.]

1 – Identification of the substance/preparation and of the company/undertaking

Trade name of the product: MINAZEL PLUS

Manufacturer: PATENT co.,
Vlade Cetkovića 1A, 24 211 Misicevo, Serbia

Use: use reserved exclusively for the Animal Feed

Emergency phone number: + 381 11 2414 333

2 – Composition / Information on ingredients /

Preparation – Dangerous ingredients:

none

3 – Hazards identification

Main dangers:

Harmful effects on health: none

Harmful effects on environment: none

Physical and chemical dangers: none

Specific risks: This product has not to be classified as dangerous substance, according to Directive 67/548/EC

4 –First aid measures

After inhalation: Remove person to fresh air. In case of irritation, seek medical advice.

After skin contact: Wash affected skin area with soap and water.

After eye contact: Rinse eyes with plenty of water. In case of irritation, seek medical advice.

After swallowing: Consult the doctor if necessary.

Show this MSDS to the responsible doctor.

5 – Fire-fighting measures

Flammability- not flammable

Before any intervention, refer you to paragraphs 3 and 4 of the present sheet in the case of specificities due to this preparation.

Without any specific mention, please respect the following precautions:

- Means of extinction: water spray, extinction powders,
- Specific dangers: in all the cases, consider the risk of explosion due to dust,
- Protection of the firemen team: blow the gaz, fumes, smogs back down by water spray jets.

6 – Accidental release measures

Before any intervention, refer you to paragraphs 3 and 4 of the present sheet in the case of specificities due to this preparation.

Without any specific mention, please respect the following precautions:

- Measures for environmental protection: do not reject neither into the sewers pipes, nor in water.
- Measures for cleaning/collecting: pick up the widespread material (by avoiding the formation of dust), and put it in a barrel of waste, except indication.

7 – Handling and storage

Before any intervention, refer you to paragraphs 3 and 4 of the present sheet in the case of specificities due to this preparation.

Without any specific mention, please respect the following precautions:

- Handling: refer to paragraph 8 for individual protection,
- Storage and Handling: preserve the preparations safe from the light, in a fresh, dry and ventilated room; close again well the started bags between each use; finally, avoid the formation of dust, take necessary measurements against the electrostatics discharges, and envisage an aspiration system on the spot.

8 – Exposure controls / personal protection

Before any intervention, refer you to paragraphs 3 and 4 of the present sheet in the case of specificities due to this preparation.

Without any specific mention, please respect the following precautions:

- Respiratory protection: the antiparticles mask, or autonomous apparatus of protection are recommended.
- Protection of hands: protection gloves.
- Eyes protection: protection goggles
- Body protection: body suit on the workplace.

Hygiene measures: wash your hands before the pauses, and at the end of the work time.

Do not eat, drink or smoke during the use.

9 – Physical and chemical properties

- Physical form: powder
- Colour: Grey
- Odor: None
- Melting point: n.a.
- Solubility in water: Insoluble
- Vapor pressure: n.a.
- Flammability: Not flammable
- Self ignition temperature: Not auto flammable.
- Explosion limits: A dust explosion is unlikely.
- Further information: None

10 – Stability and reactivity

In the normal storage conditions (refer you to paragraph 7 of the present sheet), and in the current state of our knowledge, the preparation is stable from a physical and chemical point of view, and presents no particular risks, except those possibly enumerated above.

11 – Toxicological information

This preparation is intended exclusively for the manufacture of feedingstuffs whose species and use conditions are specified on the label or the bag. Dust can be irritating for the eyes.
If need be, you can refer you to paragraphs 3 and 4 of this sheet.

12 – Ecological information

This preparation is intended exclusively for the manufacture of feedingstuffs whose species and use conditions are specified on the label or the bag.
If need be, you can refer you to paragraphs 3 and 4 of this sheet.

13 – Elimination considerations

This preparation is intended exclusively for the manufacture of feedingstuffs whose species and use conditions are specified on the label or the bag.
If the preparation is out-of-date, or when its consumption is stopped, our engineering departments are fully at your disposal to consider a treatment at the storage place of the product, or a product recall following written agreement of our quality service (cf. procedure of product recall).

14 – Transport information

This preparation is intended exclusively for the manufacture of feedingstuffs whose species and use conditions are specified on the label or the bag.
Unless if there is an indication mentioned in paragraph 3 of this sheet, this preparation does not constitute a dangerous good within the meaning of the provisions relating to transport.

15 – Regulatory information

According to Directive 67/548/EC, the product has not to be classified as dangerous substance.

16 – Other information

Instructions - recommended use: refer to the label stuck on the bag.

The information, unrequited, contained in this sheet comes from sources which we consider reliable and subject to the exhaustiveness and authenticity of the information communicated by the suppliers. Nevertheless, they are provided without any guarantee, express or tacit of their exactitude.

The conditions or methods of handling, storage, use or elimination of the product are out of our control and can not be spring of our competences. That is why, amongst other things, that we decline all responsibility in the event of losses, damage or expenses caused by, or bound in an unspecified way, with handling, storage, the use or the elimination of the product.

This material safety data sheet has been written and has to be used for this product only.
