WORLD MILL TECH 2018!

STRONG POSITION OF TURKEY IN MILLING INDUSTRY

\$1.077 billion export volume

According to the International Grains Council (IGC), Turkey is the top exporter of wheat flour, and sets a record on shipments in foreign trade.

This volume of export is not enough for the Milling Industry in Turkey, yet Turkey takes any required steps to gain a seat at all markets through flour exports.

Top export destination is Iraq. Turkey has a significant export volume in African countries like Sudan, and Asian countries like Thailand, Indonesia and China. Haiti is yet another export destination for Turkey. Reaching a wide region with \$1.077 billion export volume, Turkey proved its strong position in Milling Industry.
